DETAILED ACTION

Response to Amendment

1. Amendments to claim 25, filed on June 17, 2003, have been entered in the above-identified application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Double Patenting

3. Applicant is advised that should claim 13^{/1} be found allowable, claim 14^{/13} will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k). In the instant case, the structure in claim 14 is already present in claim 1.

('023), Venier, Casserly and Gunsell (IDS reference titled "Tris (2-Octyldodecyl) Cyclopentane, a Low Volatility, Wide Liquid-range, Hydrocarbon Fluid") and Babb et al. ('547) for the reasons

5. Claims 11 and 23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stirniman et al. ('600 B1) in view of Venier et al. ('023), Venier, Casserly and Gonsel and Babb et al. 6. Claims 12 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stirniman et al. ('600 B1) in view of Venier et al. ('023), Venier, Casserly and Gonsel and Babb et al. ('547) as applied above, and further in view of Venier and Casserly (IDS reference from Symposium on the Chem. of Lubricants, Boston Meeting, pre-print, 35(2), 1990) for the reasons of record as set forth in Paragraph No. 6 of the Office Action mailed on February 7, 2002 (Paper No. 12).

7. Claims 36 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stirniman et al. ('600 B1) in view of Venier et al. ('023), Venier, Casserly and Gonsel and Babb et al. 8. Claims 36 and 37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stirniman et al. ('600 B1) in view of Venier et al. ('023), Venier, Casserly and Gonsel and Babb et al. Response to Arguments

9. The rejection of claims 33 and 35 under 35 U.S.C § 112 – 2nd Paragraph

The above noted rejection has been withdrawn in view of applicant(s) arguments, which have been found persuasive. Specifically, applicant(s) argue that the terms “higher” and “fine” are known to one of ordinary skill in the art and have provided references supporting their allegation. As such, the Examiner deems that one of ordinary skill in the art would have been readily appraised of the scope of the claim.

10. The rejection of claims 1, 11 – 14 and 23 - 35 under 35 U.S.C § 103(a) - Stirniman et al. ('600 B1) in view of Venier et al. ('023), Venier, Casserly and Gonsel and Babb et al. ('547), alone or in combination with various references

Applicant(s) argue(s) that the disclosure of a single embodiment comprising “greater than at least 29 carbon atoms” would not motivate one skilled in the art to combine the claimed references. The examiner respectfully disagrees.

The Examiner notes that a data point within a range is a *prima facie* case of anticipation of the range. The disclosed hydrocarbyl substituted cyclopentane

Art Unit: 1773

comprises 65 carbon atoms, which is clearly within applicants' claimed range of "at least 29 carbon atoms".

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
